ABOUT THIS EXAM

The American Board for Certification of Teacher Excellence believes that highly skilled United States history teachers should possess a comprehensive body of knowledge that is research-based and promotes student achievement. The United States history exam is a rigorous assessment of a candidate's knowledge of the history of the United States from the discovery and settlement of the New World to contemporary America. The exam covers political, social, and military history.

Use a U.S. History survey text

The American Past, one of the anchor texts used to develop the exam, is recommended as your survey text. If you have another survey book from college, or you have access to a different text from your library, that is perfectly fine. It is important that you have access to a survey book because it will cover, in part, the various domains of the exam.

The Study Plan:

Your study plan includes direction on how to use ABCTE's resources. We also include recommended resources to aid in your mastery. The full description of these can always be found at: www.abcte.org/teach/exam-preparation. You should also rate these resources whenever possible.

This plan is specified for the average 13 month period (4 months for PTK, 4 months for U.S. History, and 4 months for World History. 2 weeks to take each test) in which most people are able to complete the program. Many have completed the program in a shorter amount of time.

Start with the standards and the domains and make sure to study hard, but don't underestimate the importance of being familiar with test day. Visit your testing location before you have to test. Know what to expect by way of writing boards, computers, and waiting rooms. Realize that there will be administrative parts of the test you will have to complete in addition to the exam itself.

Spread the Word: Though many people talk about teaching as a second career, few people act on it and make a difference. Whether it is finding the means or the courage to take the first step in choosing a path, many people don't know a program like ABCTE even exists to simplify the process. The power of your actions can be the inspiration for the beginning of a career for friends or family.
